

## Alternative Funding Strategies

We help employers think differently about healthcare expenses by providing them alternative funding solutions—some of which are highlighted below:

- **Empowered** – Our self-funded solution that cuts out fraud waste and abuse
- **Veris** – Long-term self-funded solution that allows clients to receive 100% of surplus, and stop loss discounts
- **EHIP** – Exclusive association program from the Manufacturers Association of South Central Pennsylvania
- **ASO** – Administrative services-only plans from multiple carriers and TPA's
- **Aetna Funding Advantage** – Aetna's self-funded solution for small businesses
- **All Savers** – Self-funded health plan designed for small businesses through UnitedHealthCare

These alternative funding solutions give Strickler clients better control over the cost of their benefits, while still providing their employees a robust plan design.

Strickler Agency, Inc. is an independent insurance agency offering a comprehensive suite of insurance solutions. We are located in South Central Pennsylvania, serving Cumberland, Franklin, Adams, Fulton, Dauphin and surrounding counties.

*Committed to providing  
our clients with the quality  
products and personalized  
service they deserve.*

The cost of benefits is rising significantly, while employees consistently seek more from their benefits packages. Strickler Agency can design an employee benefits program that makes sense for your company and your employees.

## Strategic Solutions

Experienced benefits professionals take the time to understand your business. We bring bold thinking and industry expertise to help you stay on top of regulations and economic trends. We focus on your first priority - recruiting and retaining the best employees. We work as your benefits advocate to keep your organization vital over the long term.

As the benefits landscape continues to change, our benefit professionals stay up-to-date in the industry by offering new services, products and tools to keep you ahead of the competition.

- **Compliance Audits** – a full compliance review, allowing clients peace of mind
- **Employee Assistance Programs** – a resource to lean on during hardships
- **Cornerstone HR Management & Consulting** – a partnership with local HR firm to deliver a variety of services at a discounted rate
- **Advanced Analytics** – tools to predict claims and plan change forecasting
- **TeleHealth** – consultation with medical professionals telephonically at \$0 copays

### Group Health Insurance

In general, health insurance is the first priority for employees and the second largest expense for employers, behind payroll. We will help you navigate the healthcare process to create a plan that fulfills your employees' needs and stays on budget.

### Group Ancillary Insurance

Including ancillary benefits such as dental, vision, disability, life and AD&D, in addition to a group health plan, will help you create an overall benefits package that is more robust for your employees.

### Group Voluntary Insurance

Offering voluntary coverage is a cost-effective way to let your employees choose benefits that are important to them – providing a variety of benefits with little to no impact on your monthly premiums.
